„There is a tunnel-like hole behind the shed in Johnny Barry’s broken down yard. It was made by his old dog way back although it looks like it was made by a badger who got fed up and decided to set up home somewhere else. A ragged hedge grows over it now and reveals it when the wind blows sometimes. The dog has long since passed on.“

**Mick Fitzgerald**, (\* 1951) born, raised and still living in Dublin, is a man of many talents. Besides working as a journalist for many years he was a member of bands like Topsy Sailor and The Wild Geese, still performs as a musician in Dublin, but mainly works as an actor these days. And as an author, of course. His short-stories and his poetry have been published in magazines and various collections, his story “The Fiddle Lesson” was nominated for the prestigious Irish Hennessy Award. “Session” is his first collection of shortstories.

He has also issued two solo-CDs of his own songs: Claddagh Light Sleeper, 2003

Damage Limitation, 2009, both on Mogg Records.

„These stories by the multi-talented Mick Fitzgerald are up there with his famous Irish counterparts Brendan Behan and Flann O Brien. They are full of the kind of vitality, cheerful irony and wit that one can only associate with Ireland“.
